About

I was born in March ۱۹۹۲ and graduated in Computer Engineering in ۲۰۱۴.

Since ۲۰۱۴, I have started working in the field of network and security.

In ۲۰۱۹, I entered the bank's electronic payment field and worked in the network security department.

Furthermore, I have been the IT manager of Taktacom Company since February ۲۰۲۲.

Over these few years, I have gained lots of considerable experience through working in both network security field and firewall security equipment.

In ۲۰۱۸-۲۰۱۹, I have produced and released many educational videos in the field of network security.

Currently, I am teaching network security in prestigious schools in Iran's IT field. Having a ۵-year special experience in the Network security, along with acting as security consultant to an array of banks, government organizations, large and small companies, experienced in installing and setting up and auditing the network based on relevant standards.
