ABOUT ME

Creative and Professional Product Designer with +12 Years of Experience

I'm a Design-Led Product Manager & Product Designer with +12 years of experience creating impactful digital products, including in the fintech sector.

I've led product design and management initiatives, consulted for startups and enterprises, and taught UX, product strategy, and design thinking.

My expertise lies in building user-centered financial products, solving real user problems, driving business growth, and helping teams turn ideas into high-impact, scalable solutions.

Why Hire Me For Your Next Project?

I consult for startups and enterprises, teach UX and product strategy, and help teams create user-centered, scalable solutions that solve real problems and drive business growth.
