

# Peyman Hooshmandi Raad

Senior DevOps Architect and Linux Expert

[phooshmand@gmail.com](mailto:phooshmand@gmail.com)

<https://www.linkedin.com/in/peymanhr>

## Summary

I am an experienced developer and Linux administrator with 25 years of experience. I am primarily a DevOps architect and I help software companies with optimizing, securing, enhancing and maintaining their DevOps infrastructure and applications. I also help legacy software companies who want to implement DevOps, by designing their bedrock and training their staff and developers. I am also an experienced programmer and instructor.
