Negar Alisoleimani

Education

M.Sc. in Software Computer Engineering, Azad University — **Shabestar, IRAN**
- Thesis: “indexing and retrieval of XML documents based of graph” — 2009 - 2013
- Final Grade: 16.04

B.Sc. in Software Computer Engineering, Azad University — **Tabriz, IRAN**
- Satellite imagery correction — 2003 - 2008
- Final Grade: 14.60

Work Experience

REMIS Co.

Database Administrator — present
- Database installation as single instance and clusterware
- Oracle Data Guard installation and support it
- I know about RMAN , data pump and database Recovery
- Exadata x8,x9,x10,x11 installation
- ZDLRA23 installation and tuning, backup on ZDL and Tape

Iranzamin Bank

Database Administrator — 2023-2024
- Database installation as single instance and clusterware
- Oracle Data Guard installation and support it
- I know about RMAN , data pump and database Recovery

Eghtesadnovin Bank

Database Administrator — 2015 - 2023

We had different Oracle databases with one core banking database on Oracle 11g. In there I had some tasks such as:
- Database installation as single instance and clusterware
- Oracle Data Guard installation and support it also working with DG broker
- Working on performance tuning and query plans
- I had experience on puppet patch management for 1 year
- I know about RMAN , data pump and database Recovery
- Also there was a java base application. I started to install and run weblogic as middleware and knew about log reading and solve the problem
- I started to learn about cloud infrastructure. There was a limited access to Microsoft Azure and Oracle cloud accounts. Thus I certified by Oracle Cloud infrastructure that year.

- We had to migrate from Oracle 11g to 19c. I learned about Oracle Golden Gate and transferred parts of data to new servers with GG.

Sepah Bank

Database expert 2011 - 2015

Hands on experience with Banking Business, working on OLAP and OLTP databases. We had a core banking database on Oracle 11g with 5TB data. Executing backup with RMAN and data pump. I started to learn about OLAP and varies data models, and wrote ETL code with pl/sql.

Skills

- Languages Persian native, English B, Turkish B
- Technical I have great experience with Databases such Oracle, Microsoft SQL Server, I worked as a database administration for eight years and have experience about Data migration. I can install and work with Oracle Data guard, Oracle Clusterware and Oracle Enterprice Management. I have a good knowledge about ITIL, PMBOK and Agile Management techniques.

Certifications

- Oracle cloud infrastructure foundations 2021 associate
- Verified international Academic Qualifications (World Education Service)
- Udemy: Oracle 12 cloud: advanced sql/plsql hands-on
- Sololearn: Sql fundamentals course issued Apr 2020
- Oracle 11g Administration I , II
- Oracle security
