

MASOUD KOORANLOO

Tehran, Iran

SR. VIRTUALIZATION CONSULTANT, VMWARE INFRASTRUCTURE SDDC ARCHITECT

Accomplished and result-oriented Senior Virtualization Engineer with 12+ years of proven success designing, developing and delivering SDDC environment and cloud infrastructure.

PROFESSIONAL EXPERIENCE

Team Lead.

Infrastructure Team Lead/Senior Systems & VMware Engineer

April 2018 – Present

Leverage extensive technical and leadership acumen directing the architect, design, maintenance, and troubleshooting of virtualization infrastructure using latest VMware technologies.

- Leading the VMware virtualization project at Bank data center, steering a team of 9 members to design, implement, secure, and oversee a cutting-edge VMware environment that includes vSphere products, and SDDC environment.
- Spearheaded a “Bank Data Center virtualization infrastructure”, designing and delivering a robust virtualization solution while providing maintenance service and optimizing system availability, resulted in a 99.97% uptime.
- Implemented Design and Implementation VDI over the vSAN almost 3000 Users.
- Implemented NSX infrastructure over the three datacenters and deployed NSX Universal environment.
- I deployed and implemented VMware VRA and VRO.
- Implemented HP Synergy servers star topology.

GIG Industrial

IT Solution Architect, Datacenter Supervisor VMware Systems Engineer

Sep 2016 – March 2018

Conceptualized and delivered enterprise solutions involving VMware, EMC, Led the architecture and execution of Virtual Infrastructure environments using VMware and Storage Environments.

- Led a technical team to conduct root cause analysis, technical training while influencing IT strategic vision.
- Lunched built multiple virtualization solutions, implementing and administering VMware vSphere infrastructure.
- Contributed to the establishment of a virtual desktop infrastructure horizon 7.
- Provided effectively redesigned DR Solution and vSphere Replication; implemented SRM and administered EMC VNX2 and Unities series.
- Set up design and implementation NSX infrastructure.
- Configure EMC VNX 5600 and unity 400 such as fast cache, fast VP.
- Installed and lunched active directory such as RO DC and configuring DHCP and DNS FW zone and Reverse zone, GPO etc.

SOLCIO GROUP

Datacenter Supervisor

Apr 2014 – Sep 2016

Team led Datacenter Team.

Led the VMware virtualization project at SOLICO Datacenter and Manage servers branches over the country, steering a team of 12 members to design, implement, secure, Support, oversee a cutting-edge VMware environment that includes vSphere products.

- Reorganized and managed directory service while leading the successful Design VMware and Storage Infrastructure on three Datacenter.
- Administered expertly configured and maintained VMware and Storage infrastructure, Managed Physical and virtual Server on branch over the country.
- Lunched And Manage 3par 7440 storage such as Create CPG, TVV, and VV etc. 10% decrease in monthly downtime.
- Improved and Configure Nexus and MDS Switch such as Create and configure VSAN and zoning.

- Installed and Configuration HP Blade, enclosure 7000 with BL 680 G7, Configure OA, And Virtual Connect.
- Successfully managed and supported the Windows Server, Active Directory, WSUS, and DHCP, DNS.

ZOHA KISH

Datacenter Supervisor

Sep 2012 – Mar 2014

Team led Datacenter Team.

- Implemented and managed directory service while leading the successful Design VMware And Storage Infrastructure on three Datacenters Built multiple virtualization solutions, implementing and administering VMware vSphere 5.1, 5.5 infrastructure including ESXi, vCenter, HA clusters, FT, vMotion and iSCSI storage.
- Improved And Manage HP MSA 2040.
- Configured cisco switch such as 3750, 2960, Link Aggregation, HSRP, Port Channel and etc.
- Successfully managed and supported the Windows Server, Active Directory, WSUS, and DHCP, DNS.

PASARGAD BANK

Datacenter Engineer

Sep 2006 – Sep 2012

- Design And Configure Datacenter Network
- Installed and configure HP servers
- Built multiple virtualization solutions, implementing and administering VMware vSphere 5.0 infrastructure including ESXi,vCenter, HA clusters, FT, vMotion and iSCSI storage.
- Installed And Manage HP MSA 2040.
- Configured cisco switch such as 3750, 2960, Link Aggregation, HSRP, Port Channel and etc.
- Successfully managed and supported the Windows Server, Active Directory and DHCP, DNS.

EDUCATION & CREDENTIALS

Bachelor's Degree in Information technology – *University of Applied Science and Technology*

Microsoft Azure technologist (Az-300 Microsoft Azure technologist) (Candidate ID: 11089331)

VMware-VCIX-DCV (VMware Certified Implementation Datacenter Virtualization 2020) (Candidate ID: 11089XXX)

VMware-VCIX-DCV (VMware Certified Implementation Datacenter Virtualization 6.5) (Candidate ID: 11089XXX)

VMware-VCAP-DCV (Vmware Certified Advance Professional design 2020) (Candidate ID: VMW-02243083Z-02289XXX)

VMware-VCAP-DCV (VMware Certified Advance Professional Deploy-DCV) (Candidate ID: VMW-02243083Z-02289XXX)

VMware VCIX-NV6 (VMware Certified Implementation Expert-Network Virtualization6) (Candidate ID: VMW-02243083Z-02289XXX)

VMware VCAP-NV Deployment (VMware certified Advance Professional Deploy-NV) (Candidate ID: VMW-02243083Z-02289XXX)

VMware VCP 6-NV (VMware Certified Professional 6 – Network Virtualization) (VCP6-NV) (Candidate ID: VMW-02243083Z-02289XXX)

VMware VCP 6-DCV (VMware Certified Professional6–Data Center Virtualization) (VCP6-DCV) (Candidate ID: VMW-02243083Z-02289XXX)

VMware vSAN Specialist 2017 (VMware Certified Vsan Specialist 2017) (Candidate ID: VMW-02243083Z-02289XXX)

CCNA Route and Switch (Cisco Certified Route and Switch) (Cisco ID=CSCO129775XXX)

CCNA Security (Cisco Certified Security) (Cisco ID=CSCO129775XXX)

CCNA Datacenter (640-911 Course) (Cisco ID=CSCO129775XXX)

MCSA 2012 (Microsoft Certified Solution Associate) (MCID: 11089XXX)

MCSE 2012 (Microsoft Certified Solution Expert) (MCID: 11089XXX)

MCSE 2012 (Microsoft Certified Cloud Platform and Infrastructure) (MCID: 11089XXX)
