

Shahrouz Esmailpour

Objectives

Seeking a professional position within a challenging environment requiring advanced technical and managerial knowledge and experience as per the following:

- IT Consultant
- Virtualization & Storage Architect
- Technical Instructor

Core Competence

- Designing and implementing virtualized solutions based on VMware vSphere technologies.
- Designing and implementing Storage solutions based on EMC & HPE technologies.
- Designing and implementing communication infrastructure based on Cisco System's routing, switching, and remote access solutions.
- Designing and implementing networking infrastructure based on Microsoft Systems solutions including Active Directory, Exchange Server, and Microsoft System Centre.

Education

Bachelor of Science in Information Technology (2007 – 2010)

Jönköping International Business School – Sweden.

Diploma in Math and Physics (1998 – 2001)

Alborz high school – Tehran, Iran.

Professional Certifications

EMC Information Storage Associate

VMware Certified Professional – Datacenter Virtualization (VCP-DV)

VMware Certified Associate – Cloud (VCA-Cloud)

Cisco Certified Network Professional (CCNP)

Microsoft Certified System Engineer (MCSE)

Microsoft Windows Server 2000/2003

Microsoft Certified Trainer (MCT)

Microsoft Certified System Administrator: Messaging (MCSA)
Microsoft Exchange 2000/2003/2007

Information Security Management System: Internal Auditor
(BUREAU VERITAS, August 1st -3rd 2006)

ITIL Foundation Examination – Version 3
Exin – Gothenburg, Sweden

Career Path

Infrastructure Team lead / Consultant

03/2014 – 01/2017 – Paaydar Networks – Tehran, Iran.
Responsibilities included; Designing and leading the implementation process of VMware vSphere and related products projects and also designing EMC VNX and HP EVA storage solutions.

Virtualization & Storage Instructor

10/2016 – 01/2017 – Arjang Higher Education institute - Tehran, Iran.
Responsibilities included; Training and supporting students on VMware and EMC career certifications based on official training curriculum.

Senior IT instructor

04/2013 – 09/2016 – Cybertech Institute – Tehran, Iran.
Responsibilities included; Analyzing customer needs formulate and implement IT solutions. Teaching VMware, Cisco Systems and EMC courses.

Senior IT instructor

01/2015 – 09/2016 – Carrier Digit – Tehran, Iran.
Responsibilities included; Analyzing customer needs formulate and implement IT solutions. Teaching VMware and EMC & HPE courses.

IT Consultant /IT Instructor

06/2005 – 07/2007 - Arena institute of technology – Tehran, Iran.
Responsibilities included; analyzing customer needs and formulating a proper IT solutions, designing and implementing communication networks based on Microsoft Server Systems products and Cisco routing and switching solutions.

System Administrator

05/2002 – 03/2003 - Ministry of Petroleum – Tehran, Iran.
Responsibilities included support of computer hardware and software, Monitoring and troubleshooting LAN, provide helpdesk support and maintaining Microsoft network infrastructure services.

Accomplished Projects

Bimeh Asia

08/2015 – 11/2015 – Tehran, Iran.

Redesigning EMC VNX storage system and tuning VMware vSphere server virtualization environment. Designing site disaster recovery solution based on VMware SRM.

National Iranian Oil Company

08/2014 – 04/2015 – Tehran, Iran.

Designing and implementing VMware vSphere 6.0, EMC VNX5400 and VEEAM backup & replication as a base ground for virtualized datacenter and vCloud infrastructure.

Hormozgan Steel(HOSCO)

01/2014 – 05/2014 – Bandar Abbas, Iran.

Designing VMware vSphere 5.5, vCenter SRM and HP EVA replication solution for Disaster Recover site implementation project.

Bahonar Port

05/2013 – 11/2013 – Bandar Abbas, Iran.

Designing VMware vSphere 5.1 and Horizon View 5.2 for 20 physical Servers and 250 Virtual Desktop environments. Designing Campus LAN routing and switching environment based on Cisco devices.

Siemens Iran (DDDS Subsidiary)

08/2012 – 03/2013 – Tehran-Qeshm, Iran.

Designing and implementing VMware ESXi 5 infrastructure in multi-site environment. Designing and Implementing Microsoft Exchange 2010 as internal/internet messaging solution.

Mobin Petroleum

02/2012 – 07/2012 - Asaluyeh, Iran.

Designing datacenter solution based on VMware vSphere 5 solutions. Designing and implementing P2V migration and implementing Server Virtualization on 18 ESXi Servers. Designing and implementing Storage Area Networking (SAN) solutions. Upgrading Exchange Server 2007 to Exchange Server 2010.

Tehran Telecommunication Company (TTC)

06/2011 – 12/2011 - Tehran, Iran.

Designing and implementing virtualized datacenter based on VMware vSphere and HP SAN storage solutions.

South Pars Energy Zone

02/2010 – 5/2010 - Asaluyeh, Iran.

Designing and implementing datacenter based VMWare ESX servers and HP storage solutions. Optimizing routing and switching infrastructure in a campus LAN environment holding more than 50 Cisco Systems L3-Switches

Accomplished Training Courses

- CompTIA Storage+
- EMC Information Storage Management
- EMC VNX Block Management
- HPE Managing 3PAR StoreServ 1 & 2
- HP Accelerated SAN Essentials
- VMware vSphere 6.0; Design & Deploy
- VMware Horizon View 7.0; Install, Configure, Manage
- VMware Horizon View 6.2; Install, Configure, Manage
- VMware vSphere 6.0; Optimize and Scale
- VMware vSphere 6.0; Install, Configure, Manage
- VMware Horizon View 5.3; Install, Configure, Manage
- VMware vSphere 5.0; Design Workshop
- VMware vSphere 5.0; Manage for Security
- VMware vSphere 5.5; Optimize and Scale
- VMware vSphere 5.5; Install, Configure, Manage
- Cisco Certified Network Professional
- Cisco Certified Network Associate

Personal Information

Marital Status: Married

Languages: Farsi Native
English – Fluent

Swedish – Intermediate
German – Intermediate
